WORK EXPERIENCE

Tsai Center for Innovative Thinking at Yale, *Summer Venture Associate*, New Haven, CT

June 2023 – August 2023

- Developed a frontend user interface for using Velo API MedPrep AI, an AI-powered insights tool that democratizes access to top-tier medical school admissions consulting, achieving over 1000 users within the first week of release.
- Deployed “like” and “follow” features for Sonadia, a listen-to-earn Patreon for web3 musicians and superfans, leveraging Firebase API and React.js.
- Designed and deployed a responsive. inaugural website for Carbon Loop, a Yale-affiliated venture that creates renewable methanol from captured carbon using proprietary technology, using React.js, JavaScript, and CSS.

Colu Technologies, *Business Development Intern*, Tel Aviv, Israel

June 2022 – August 2022

- Collaborated with the Software Development team to develop a Python-based web scraper to reduce market prospecting time by about 30%.
- Built a Python-based impact calculator web application, using the Flask framework, that would be integrated into the company's website to increase engagement with prospective clients by at least 20%.
- Delivered key insights on over 100 potential target markets in the United States through extensive market research and analysis, leading to the closing of two strategic deals with Utica, NY, and the City of Peachtree Corners, GA.

Equity Bank Kenya, *Rotational Intern*, Nairobi, Kenya

February 2020 – April 2020

- Collaborated with the Microfinancing department in the digitalization of Fanikisha Jamii group credit product, which targets youth and women in micro-enterprises.
- Marketed and sold Equitel mobile banking products, leading to a 40% increase in net sales at my branch.

PROJECTS & LEADERSHIP EXPERIENCE

BizTap, *Web Application*

November 2021 – December 2021

- Developed an interactive, online business managed tool with inventory management, basic accounting, and employee management functionalities for small-scale enterprises.
- Utilized Flask, JavaScript, HTML, and CSS.

Student Technology Collaborative, *Head Cluster Technician Coordinator*, New Haven, CT

November 2021 - Present

- Oversee the daily operations of a 20-person team of Cluster Technicians (CTs) on campus by managing their schedules, providing guidance and support, and ensuring compliance with departmental policies and procedures.
- Hire and train new CTs on the use of various software provided by Yale Information Technology Services.

Equity College Counseling Program, *Student Mentor*, Nairobi, Kenya

July 2021 – December 2021

- Guided a cohort of 10 students through the U.S. college application process, including SAT prep, proofreading essays, setting up Common Application accounts, and financial aid application.
- Formulated presentation slides and catalogued information resources on college applications for mentees.

TECHNICAL SKILLS

- *Computer Languages:* Python, C, C++, JavaScript, HTML, React.js, CSS, SQL
- *Tools:* Git, GitHub, Version Control
